

Greg Davis

2005-2006 AAAS Fellow at the U.S. Department of Defense
Office of the Secretary of Defense, Program Analysis
& Evaluation; Office of Resource Analysis

PHD, PHYSICS, UNIVERSITY OF ROCHESTER

Currently serving as an adjunct research staff member
for the Institute for Defense Analyses of the U.S.
Department of Defense

“The fellowship was such a positive experience in so many ways. It’s stimulating and exciting to see how government works, and it’s remarkable how much impact one scientist can have in one year. I loved the chance to look at a brand new issue, sink my teeth into it for a few days and then come to a conclusion about it that would be listened to by management. I was able to participate in important studies that may contribute to the design of the Army’s next gunship, change the way that our men and women in uniform are compensated, and affect how the military uses fuel.”
